### What Teachers say.....

*"The Karl Anthony performance was one of the best I have attended with my students. The children were engaged the entire time, listening and being able to add motions and movement. At the end of the performance, the boys and girls sang "You are an Angel" to teachers. After we returned to our classes and were lining up at the end of the day, one of my little first graders said "Mrs. Allen, you are my angel". Needless to say that made my day!"*
